About Aarambh's Mission

It is well known that once a child is AUTISTIC cannot become normal throughout life. It is very difficult for them to spend life like others. So, it is the Mission of AARAMBH on priority basis

To provide quality intervention for individuals with Autism Spectrum Disorders (ASD)

To help children with ASD reach their potential to provide a holistic approach

To provide counseling for the parents of children with ASD. To spread awareness about autism in every level of

And hence to empower individuals with an Autism Spectrum Disorder, and their families,
to fully participate in their communities.

How to turn DREAMS into REALITY

AARAMBH Centre for Autism has certain plans of action

Build the capacity and skills of individuals, families, community agencies and professionals to help individuals with Autism Spectrum Disorder realize opportunities for successful community inclusion

Provide leadership in the development and delivery of services that are marked by excellence and flexibility and are grounded in evidence

Raise awareness and understanding of Autism Spectrum Disorders and promote the rights of all individuals to be treated with dignity and respect

Keeping these GOALS in mind the AARAMBH is heading towards fulfilling the DREAMS. Through the years of experience it has been noticed that AUTISTIC children are quite interested in group activities rather than performing alone. So, AARAMBH has conducting many group activities, programmes to bring BEST out of these children. In year 2014-2015 in spite of limitations AARAMBH has organized competitions & other activities.

Therapies adopted by Aarambha :

TEACH Method :- Treatment and Education of Autism and Related Communication Handicapped Children
(Structured Teaching)

PECS Method :- Exchange communication System (Teaching children with the help of pictures)

SI Therapy: - Sensory Integration: attempts to treat Sensory Integration Dysfunction. [1] Some of these treatments (for example, sensor motor handling) have a questionable rationale and no empirical evidence.

Music Therapy :- Reduce Hyperactive with the help of various kind of music

Speech Therapy: - This is focuses on receptive language and expressive language.

Behavioral Modification: -An approach to psychotherapy in the behaviourism tradition that focuses on behavior.

Daily Life Therapy : -Daily Life Therapy (DLT), called Seikatsu Ryouho in Japanese, is an intervention which focuses on teaching children with autism To successfully interact in groups.

Special Awaj software :

We have installed Awaj software for Nonverbal children (who don't have speech). Which improve their speech?

Computer Education :

As per search on Autism, Autistic children are very good in technology. They are also have much more affection in

So enhance compute knowledge of our children, we have computer education training session, at present we are giving computer education to following autistic children

1)swaraj Rajput 2) Kiran Joshi 3) Mayur kulkarni 4) Bhakti kulkarni

Current Infrastructure :

Presently we are running aarambh autism center, in 4 rooms banglow with open space which is taken on rent. We have equipped our therapy rooms with advanced equipments
